

# TAKE THE PLEDGE

Every year, during the *Annual River Clean Up* tons of trash is pulled from our natural waterways. This year along with the Annual River Clean Up the Environmental Protection Committee is launching a campaign to prevent trash and debris from entering into our lakes, rivers and streams. Residents should never intentionally dump into our stormwater systems as trash eventually ends up in the waterways. We ask residents to take part in this campaign and pledge to protect our waterways from rubbish or any other waste products.

## TAKE THE PLEDGE KEEP OUR RIVERS AND STREAMS FREE OF DEBRIS

- \_\_\_ Never Dump In Waterways
- \_\_\_ Keep Storm Drains Free of Debris
- \_\_\_ Remove Debris from Open Space Areas
- \_\_\_ Pick Up After Your Pets
- \_\_\_ Do Not Litter

If you witness illegal dumping of debris, leaves or bulk items into our waterways, take action and report this activity to the State of NJ DEP 24 Hour Hotline 1-877-WARN DEP (927-6337) or proper local authorities. Together as a community, we can make a difference and reduce flooding.
